

Treasurer's report: Expenditures for Web \$95.50 New balance is \$535.53

Last month's minutes are online.

We discussed accessing & printing the agenda. Karl explained: if we go to the website & click on agenda, it will come up> We choose the correct date & then print.

Karl's presentation: \$999 MacBook....Notebooks only come in 13.3 " monitor

Laptop....The I Book became the lower end MacBook (more or less)

Want to travel? Buy a \$20 VGA Dongle which will plug into the side of your MacBook, and to a large monitor on your desk--then do your work. Unplug it to travel, & leave the big monitor at home.

If you buy "Word", you can put it on up to 5 computers.

Documents can be saved in 3 ways. If you choose PDF, you will not be able to change the material again.

1. MacBook Pro in: 13, 15, or 17" \$1199
2. Pro The 13" has an SD slot built in  
Targus--Universal Media Reader takes up to 16 different cards--plugs into  
the MacBook & transfers pics to the MacBook
3. Pro 15" (3 models) 2.4 GHz 2 models @ \$1799 have more ram & if you  
don't need to do HDR--video etc. it's a better buy (probably) than  
1 model @\$2299.
4. Pro 17" 2.53 CHz has more ability to build presentations--more  
advanced

MacBook Air  
Miti Mini Mac

I Pad starts @ \$499 Free Word Processing. Log into Google

documents & type in what you need to save--it stays on the internet until you get home and print it.

Get a wireless Modem WiFi Router is needed to use/get WiFi at home. \$50 to \$150 to buy an airport station--shop Fred Meyer and other similar stores

Mark Rueben can set up the airport/airport card.  
Carolyn needs instructions: go to Apple Support to see the list of models available.

Almost all Safeways have free WiFi. Many motels and Rest Areas have it too. When you log on, they may have a use charge & want a credit card # before giving you access.

Log onto: Air radar program to see what's out there, and what channels are being used. Then you program yours to channel 1, 6, and 11.

Be sure that your DSL and computer are connected to the Router/WiFi correctly.

In system preferences, click on "sharing" in network (know user & password name or it won't work)

Go to my p.c. & you can "pay" for a service to use your computer esp. while you travel.

When you travel esp. out of the USA, you may need an inverter OR you may "FRY" your computer.

Q. & A.

Carolyn backed up her photos to an external drive, & when she went to retrieve them later, they weren't there.

Put a music CD in ? Do you want to import YES

Watch the tutorial.

Too get a CD out: Hold the mouse or keypad down until it goes off--Wait, and restart. The disk should come out.

MACs recognize CD-R CD, but may not (CD + R) write to them.

With an RW + computer the second time it erases disk & rewrites over on it.

2 Choices: Burn disk

Burn session can Burn 100mg

TOAST PROGRAM--version 10 Titanium \$79.99 is set up to help you:  
Burn, Copy, and make multiple copies.

Next meeting 5/20/10 at 7:00 p.m. at the PUD Meeting Room.
